Hello from Shannon and Kruger du Plessis, Co-Founders of KruShan Foundation

We've had an incredible start to 2025 with a successful January fundraiser and a presentation to the San Antonio Audubon Society the first week in February.

A project we funded in late 2024 is now operational. The African Penguin Protectors KruShan Foundation X-Ray Room. Our partner, the African Penguin and Seabird Sanctuary can now offer enhanced medical care and protection for endangered seabirds—a first in the Overstrand region of South Africa.

Fun African Penguin Fact

African penguins are classified as "charismatic megafauna," which is the scientific way of confirming that they are adorable...
