

Hello from Shannon and Kruger du Plessis, Co-Founders of KruShan Foundation

We have some exciting news! We'll soon be announcing a new partnership with an African penguin rescue organization in South Africa.

We are also beginning our WHAT, WHY, HOW, AND WOW: THE STORY OF AFRICA'S CRITICALLY ENDANGERED PENGUINS series of presentations at several Austin Public Library branches. Check out our [events page](#) for the August and September dates and locations. We'll add dates for October-January once they are confirmed. We'd love to see you.

We are planning a free special event in Wimberley that we will announce by the September newsletter—we're still finalizing the details.

Thank you for supporting our work. #NotBy2035

How You Can Help

A Community Rooted in You. We believe meaningful change starts with connection. That's why we created a survey designed with you in mind. Share what you'd like. Leave what you'd rather not. There's no wrong way to show up. Your voice matters and we're listening.

Here's the [survey link](#).

Fun African Penguin Fact

African penguins have a much narrower range of hearing than humans but are much more sensitive to specific frequencies than we are. This allows them to pick out the calls of their chicks and mates with ease in a noisy colony.

Send this to a friend and invite them to [subscribe](#).
